

## Internship | Fiber Optics Technician

**INTRACOM TELECOM** is an international manufacturer of telecommunication systems and a provider of integrated solutions and professional services for fixed and mobile network operators across Southeastern Europe, the Middle East, Asia, and Africa.

Within this dynamic context, the company is offering an **internship opportunity for final-year students** in the role of **Fiber Optics Technician**, supporting its technical field operations and gaining hands-on experience in real telecommunications projects.

### Job Description

- Installation of optical distribution frames (ODFs)
- Fiber splicing, systematization and cable routing
- Optical network measurements using Power Meter – OTDR (Optical Time-Domain Reflectometer)

### Requirements

- Final-year student at a University in Telecommunications, Computer Science, or a related field
- Good command of English (B2 level)
- Solid knowledge of computer systems and MS Office
- Driving license
