

Internship | Field Technician

INTRACOM TELECOM is an international manufacturer of telecommunication systems and a provider of integrated solutions and professional services for fixed and mobile network operators across Southeastern Europe, the Middle East, Asia, and Africa.

Within this dynamic context, the company is offering an **internship opportunity for final-year students** in the role of **Field Technician**, supporting its technical field operations and gaining hands-on experience in real telecommunications projects.

Job Description

- Assist in technical fieldwork related to fault resolution and the installation of telecommunications connections
- Participate in the installation and configuration of network equipment (routers, switches)
- Perform basic measurements and tests using appropriate tools and a laptop
- Record and update data in telecom support information systems

Requirements

- Final-year student at a University in Telecommunications, Computer Science, or a related field
- Good command of English (B2 level)
- Solid knowledge of computer systems and MS Office
- Driving license
